Line Striping Applications

VEZOS

Think different. Think strong!

design · production · distribution

Manual no: 9877140

vezos.co.uk

VEZOS PROSTRIPE line strippers ensure a panoramic view of the road & eliminate the blind areas, **even in sitting position with the bead hopper on !**

Connect the **FlipDrive** to all Self-Propelled VEZOS ProStripe models, on the spot, no tool, flip system for overall visibility on the job. Hidden non-slip storage space for tools. Extra storage space for warning cones, gas or paint tank. No complex pedals for steering the FlipDrive, simply use the ProStripe steering handles. **Enjoy the ride !!!**

Rear Gun & Bead Hopper

No tool conversion 

Simple, no tools required, turn the hopper around and place the guns on the rear end of the striper for stable long lines.

Important : VEZOS unique vibrated assisted bead hopper, provides a smooth & gradual release of the glass beads, during operation.

EXCLUSIVE

- * **FlipDrive** Transformable Ride System
- * Foldable Chassis
- * XXL Front Wheel Extra Stability
- * Increased Visibility Design
- * One Hand Motion Motorcycle Type
- * Easy Gun Selector
- * Vibrated Assisted Bead Hopper
- * T.C.S - Tunnel Cooling System
- * Disk Lock Hand Brake

Pallet Concept

Innovative Ideas 

Easy transportation:
Fits in all city vans & station wagons.

VEZOS designs are cost saving on the job, but before the units arrive to their final destination - you the end-user - they are transported worldwide. Now you may think that this fact does not interest or concern you, well this is where the whole misconception is... The more space a product takes up, the higher the transport cost, therefore increase in your purchasing price! This is a fact that VEZOS takes very seriously and hopes to achieve the best value/product equation possible. How? By thinking out of the box, by smart **i n n o v a t i v e s o l u t i o n s .** VEZOS ProStripe range all fit on a single standard European pallet 120cm x 80cm! **See how....**

Foldable Chassis

Foldable Chassis

Innovative Ideas 

VEZOS innovative designs! **IT FITS EVERYWHERE.** Pass with ease the ProStripe through any standard doorway, store it in your business, garage or warehouse without taking up the entire space and finally fit the ProStripe in any small city van or even Station Wagon that you may own, without having to bring it to parts, due to its foldable design.

Road Marking Truck System

Frame technology

RoadMaster Road Marking System is equipped with 2-3 heavy duty hydraulic pumps, in an independent frame. This frame is placed in any type of truck or van with only 4 screws. The RoadMaster controller system has been programmed with a pattern and gun selection, suitable for multiple lines. A visual video guidance system will allow one user to operate the whole system. RoadMaster is ideal for long lines, airport marking, highways and lane turnouts. RoadMaster Truck Frame System is custom made depending on the client's needs.

Applications

- ◆ City Roads
- ◆ Local Roads
- ◆ Airports
- ◆ Parking Lots
- ◆ Intersections
- ◆ Schools / Playgrounds
- ◆ Bike Lanes

Materials

- ◆ Common Road Marking Paint
- ◆ Heavy VOC paint
- ◆ Waterborne Paint
- ◆ Rubberized Marking Paint

Custom Fit Paint Hopper

68 liter hopper - 18 gpm

Hydraulic Line Stripers

Basic ProStripe

1 or 2 gun performance hydraulic striper, equipped with VEZOS T.C.S. technology is contractors first choice for line marking small & medium jobs. The ProStripe 200 foldable chassis, along with multiple VEZOS unique innovations embedded to this unit, offers the industry a revolutionary opportunity in striping.

6 Year Warranty Plan

ProStripe Line Stripers

VEZOS offers a reliable warranty for each hydraulic airless striper, ensuring users that they are covered by the VEZOS manufacturers warranty. VEZOS is the first airless manufacturer to offer a 6 year warranty plan, simply by registering your unit after the purchase and we will take care of the rest.

** terms apply to this plan*

- ◆ Easy Wheel Alignment
- ◆ Easy Angle Front Wheel Selector
- ◆ 6 Ply Industrial Tires For Long Life Durability
- ◆ Spring Assisted Gun Holder
- ◆ Slow Stroke Hard Chromed Hydraulic Pump
- ◆ Anti-vibration System
- ◆ Low Centered Gravity Design
- ◆ Rear Gun Mount System

Powered by HONDA

Reliable Partners

ProStripe Line Stripers are powered by HONDA GX series engines, covered by a the Honda warranty program worldwide.

Quality Test Pass

Quality Test

High Standard Testing

VEZOS guaranties that every single pump that leaves the production line, undertakes a high standard 30 min quality test, in full power and pressure, ensuring correct function of the equipment.

Bead Hopper 21 liters

Vibrated Assisted

Located on top of the entire hydraulic system at an appropriate height, allowing its users to visualize the road ahead, VEZOS bead system's clever location (1-2-3 guns) absorbs just enough vibration enabling the glass beads to flow with ease to the guns.

Self-Propelled System

Getting it right!

VEZOS ProStripe hydraulic line stripers are offered either as a walk behind system or as a self-propelled operation.

So why choose a self-propelled unit? Lets analyze this option. When on a big job site, you will have to keep in mind the steady striping pace, the weight of the actual unit, the paint tank and of course the glass bead hopper and the user fatigue. All these factures effect the line quality as the speed of the application is connected to the thickness of the paint applied to the surface. The fasted from the predetermined speed results to less material applied to the surface. When operating slower, it results to excessive material on the line, both facts can happen when line striping with a manual unit but when using a self-propelled unit the above issues are eliminated.

Unmatched Visibility

VEZOS Unique Features

Carefully designed, the ProStripe Self-Propelled striper with FlipDrive Seat, increases visibility even when striping with the bead hopper attached. Choose between a sitting or standing position increasing the visibility of the road.

VEZOS ProStripe offers a panoramic view of the road & eliminates the blind areas, *even in sitting position with the bead hopper on !*

FlipDrive, Double ride Option - “ Transform Concept”

FlipDrive - Seating Position

Steady Line Striping

Connect the FlipDrive system to all Self-Propelled ProStripe line striper, on the spot with no connection tools needed.

Take advantage of the FlipDrive hidden away storage space, to store your tool box. When operating in a sitting position, you can carry along road cones or even a gas tank, enabling you to fill up the Honda engine without needing extra assistance .

FlipDrive - Standing Position

Panoramic Road View

Innovative thinking !! Transform the FlipDrive ride into a standing platform by simply lifting the seat leaver, raise the line striper's handle and use the leaning system to gain the best control over the complete unit. When operating in a standing position, you gain the best visibility of the entire jobsite, without any limitations. Test this even with the bead hopper in place and be amazed with the panoramic view.

Leather type Seat

Durable 6 Ply Tires

Standing Platform / Extra Storage Space

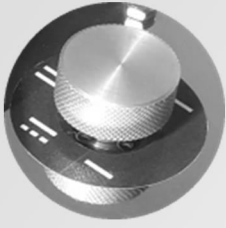

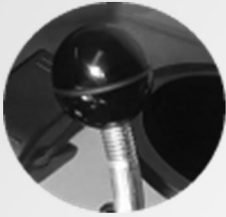

EXCLUSIVE

On The Go Pattern Selection

Easy Gun Selector

Simple gun pattern selection, directly from the main console. No need to stop working and change wiring. With the VEZOS E.G.S. pattern selection while on the go simply adjust the gun pattern to support single, double & skip lines.

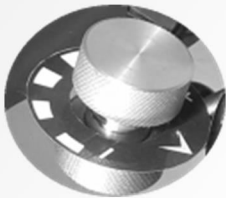

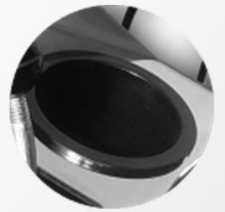

Hand Brake System

Easy hand brake secure system, apply brake from console to activate the disk lock system.

Holder - Cup or Storage Space

Clever thinking!!! This extra holder on the ProStripe console, has been designed especially for you. On the job and don't have time for a coffee break? No need to worry, enjoy a hot cup of coffee while stripping. Use the holder also for storing extra gun tips or anything else needed on the job.

EXCLUSIVE

Gun Pressure Adjustment Control

Easy gun pressure adjustment from the main console, for desired result.

Kill Switch

Console operated kill switch for turning off the Honda engine.

Honda Engine Throttle

Adjust the Honda engine revs according to the jobs demands.

EXCLUSIVE

Motorcycle Type Motion Control System

VEZOS Motorcycle type motion control, is an easy to control driving system installed on the ProStripe Hydraulic Self-Propelled units. As simple as driving a motorcycle, with no complex pedals, buttons or extra levers. This one handed motion control, has a common left-right movement system allowing the SP unit to work with or without the FlipDrive seat, especially when tackling uphill roads with a heavy loaded unit.

ProStripe Hydraulic

ProStripe hydraulic line strippers are contractor's choice for those most demanding jobs. Equipped with VEZOS slow stroke hydraulic pump and Tunnel Cooling System that will never let you down. VEZOS ProStripe Self-Propelled versions can easily adapt to the double ride method FlipDrive seat, another unique innovation that VEZOS offers the industry. ProStripe is available in 2 editions, Standard, & Self-Propelled, covering a complete range of striping jobs, such as parking lots, city roads, airport lanes ..

Disk Lock Brake System

2017

First mid-range hydraulic airless paint sprayer

2017

"High Flow" Airless Texture Sprayer Range

Telling the story

VEZOS was founded in 1970, designing and manufacturing pneumatic pumps for the marine and industrial market. Over the years and under second generation management, VEZOS group expanded its manufactory line offering innovative products to the contracting and road marking industries. Today, VEZOS has a well organized distribution network around the globe, offering solutions & cost effective products.

The brand – Going beyond the products.

VEZOS motto: **“Think Different. Think Strong”** is not just a clever phrase, it is the brand’s honesty.

Each product that is designed **MUST** offer a difference to the user, it **MUST** be innovative and cost effective to the industry. VEZOS design team has an aim, an aim to differ from the competition with solutions that will define the brands unique character, this can only be accomplished by offering innovative solutions and the strongest units in the industry.

Think different. Think strong!

"...VEZOS motto is focused on our brand's products and innovation, by offering the market a different and innovative solution with each product designed and manufactured by our team. Innovation is VEZOS aim; each product has been carefully evaluated in order to offer its users and the market a new technology and a new invention. We think different to the competition, we think out of the box and that is why the VEZOS products have changed the industry's mentality over the years. Sanding with a gripping effect, achieving amazing working heights, tunnel cooling hydraulic systems, upright & compact airless designs are only a few of VEZOS innovations that are included in our portfolio. We think different, we think strong, as any product that we present to the market becomes a lifelong partner to its user..."

- Dimitris Vezos, Inventor
